

BANSKO BULGARIA

Emsworth Travel have been established since 1983 and are ABTA bonded members of Advantage the largest consortium of travel agents. We have purchased an apartment in the resort of Bansko which is a 4star development offering Reception, small bar area, spa including indoor pool, jacuzzi, sauna, steam room, gym, childrens playroom, Spa treatments such as massage can be arranged with notice.

Bansko has a long ski season with snow falling from December to late April and turns into a perfect spa break during the summer. Surrounded by 3 mountain ranges, Rila, Rodope and Pirin (the most spectacular) being the second largest mountain in Bulgaria and our apartment has the advantage of having direct views from the balcony.

Our apartment is a duplex style, with downstairs offering bedroom, shower room, kitchenette, and lounge/dining area. An open fireplace can be used for that cosy winter evening, and upstairs a second bedroom with en suite and a corner bath with shower attached. We have a private parking space for those with their own car/hire car.

Our apartment is just 5 minutes walk to the ski lift and a few minutes more to the centre of Bansko, though there are several restaurants and bars close to the apartment. There is an ice skating and bowling rink within 2-3 minutes walk of the apartment.

It is a good all year round resort with walking, trekking, rock climbing, golf, cycling, and horseriding available in the summer and Greece is just 138 kms to Kavala in Greece and just 146 kms to Thessalonika. Several excursions are also available. It still retains the Bulgarian charm with plenty of Mehanas (local restaurants) to chose from, though there is a good choice of European cuisine too.

A high speed cable car takes you to the top of the Pirin Mountain range in 20 minutes.

Skiing is very good as is the standard of tuition and you can ski amongst the pine trees in great scenery

There is a choice of restaurants on the slopes should you wish to stop for a break
